

SOP- HOW THE SERVICE PROVIDER CAN SETUP HIS OWN CALENDAR AND GENERATE INVOICES

Objective

To permit service provider setup his calendar and generate invoices

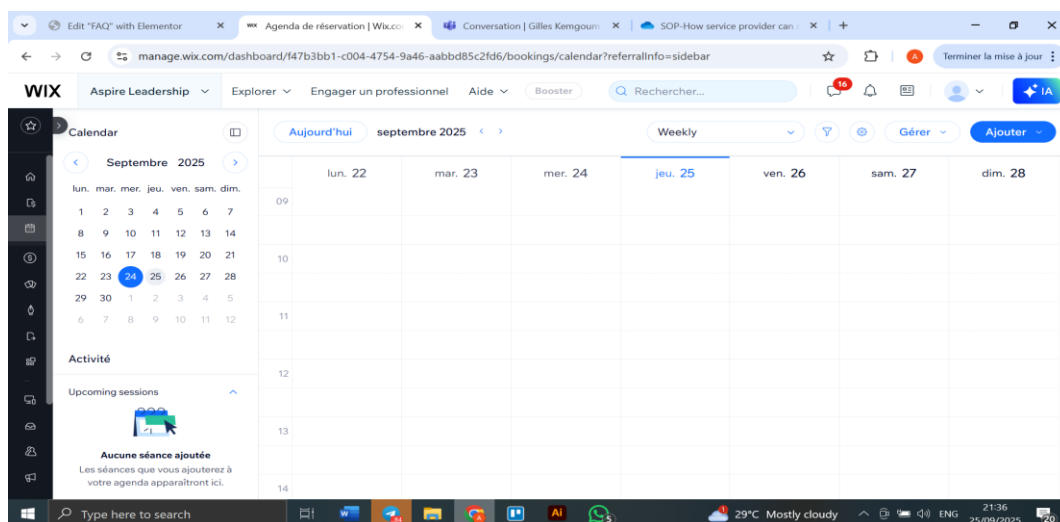

Procedure

Step 1: Login in his WIX account and access the AspiredLd dashboard

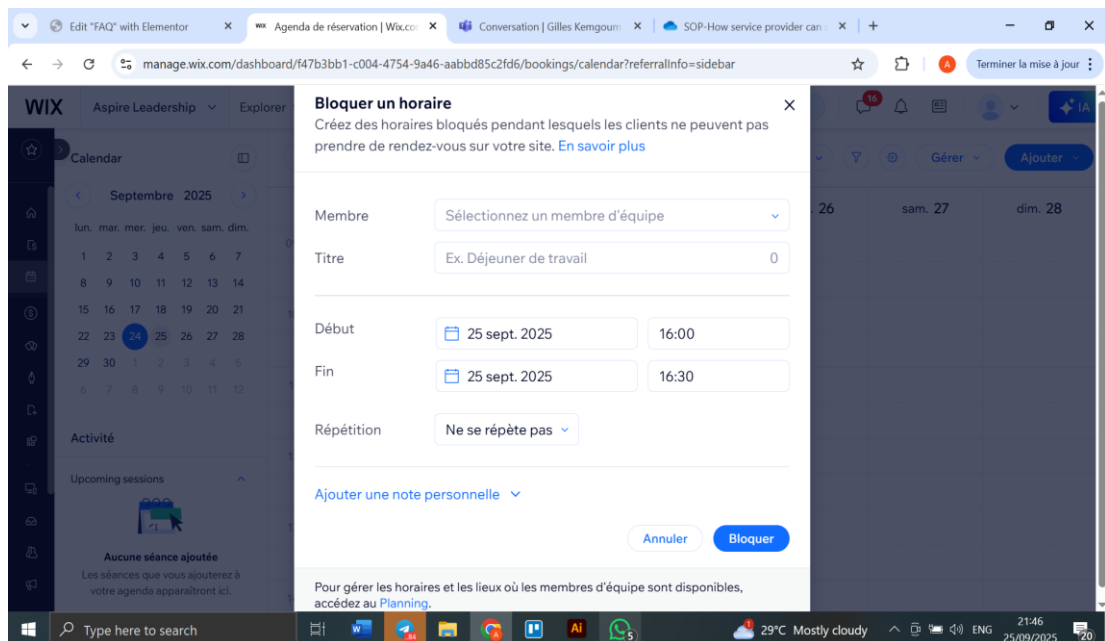

- ✓ Once the service provider accept the invitation link sent by the Admin it will automatically bring him to his dashboard if he already has an account. Else he will be forced to create one first.
- ✓ Access the AspiredLd website's dashboard from the list of websites available on his WIX account.

Step 2: Setting up his calendar

- ✓ On the left sidebar of the service provider's dashboard click on **"Agenda"**.

- ✓ The above picture shows what has to be displayed once you click on Agenda found in the left sidebar
- ✓ Click on the "Add button" (Ajouter) and select working hours to set up your calendar. Once you have click on it a panel will be displayed

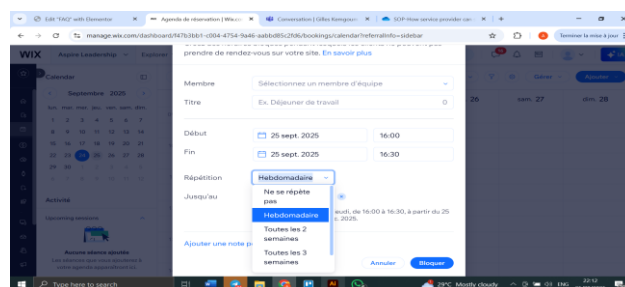

- ✓ The above picture shows the panel that will be displayed and this is where your agenda will be configured

Some important notes to take into consideration while setting up your calendar

- When you are setting up your calendar, always choose the starting date to be after the day you are setting up your calendar and do not set up your calendar basing yourself on passed days

For example if you are setting up your calendar today Thursday the 25th. Configure your calendar to start the day after. Also note that hours you setup are unavailable hours since by default all hours and all days show the service provider as available.

- When setting up your calendar, choose “Weekly” to setup you availability from Monday to Sunday

- Remove the deadline if you want it to be to infinity (The hour range for the given day of week, for example: every Monday from 00:00 to 08:00)

The screenshot shows a scheduling interface. On the left is a sidebar with a calendar view. The main area is titled 'Répétition' (Repetition) and shows a weekly schedule. A dropdown menu is open for 'Hebdomadaire' (Weekly), with an option 'Retirer la date de fin' (Remove end date) highlighted. Below this, a date picker shows '24 déc. 2025'. A text box indicates the schedule: 'A lieu chaque semaine, le mercredi, de 17:30 à 18:00, à partir du 24 sept. 2025, jusqu'au 24 déc. 2025.' At the bottom, there are buttons for 'Annuler' (Cancel) and 'Bloquer' (Block), and a link to 'Ajouter une note personnelle' (Add personal note).

- If the whole day you are not available then just set the hour range from 00:00 to 23:00 (For example: if you are not working on Sunday)
- Then save your Agenda

Step 3: Generating Invoices

- ✓ On the left sidebar of the service provider's dashboard click on **“Receive payments”** then select **invoice**
- ✓ The invoice dashboard below will be displayed

The screenshot shows the Wix 'Factures 2' (Invoices) dashboard. The left sidebar contains navigation links: Accueil, Recevoir des paiements (selected), Liens de paiement, Factures, Devis, Propositions, Paiement PDV, Agenda de réservation, Ventes, Catalogue, Blog, Partage de fichiers, and Applis. The main area is titled 'Factures 2' and includes a 'Plus d'actions' dropdown and a 'Créer' button. Below this is a 'Résumé' section showing three metrics: '2,00 \$US En attente' (Pending), '0,00 \$US En retard' (Late), and '2,00 \$US Total payé' (Total paid). A table below the summary lists invoices with columns: Numéro, Client, Date d'émission, Date d'échéance, Total, Statut, and Actions. The table shows two invoices for 'ivan saha'.

Numéro	Client	Date d'émission	Date d'échéance	Total	Statut	Actions
0000003	ivan saha	22/09/2025	22/09/2025	US\$2.00	PAYÉE	...
0000002	ivan saha	22/09/2025	22/10/2025	US\$2.00	ENVOYÉE	...

- ✓ Once the invoice dashboard is open click on **“create”** then choose **“invoice”** it will display an invoice form

The screenshot shows the Wix invoice creation interface. On the left is a dark sidebar with navigation options: Accueil, Recevoir des paiements, Liens de paiement, Factures (selected), Devis, Propositions, Paiement PDV, Agenda de réservation, Ventes, Catalogue, Blog, Partage de fichiers, and Applis. The main area is titled 'Facture #0000004'. It includes fields for 'Date d'émission' (09/25/2025) and 'Date d'échéance' (10/25/2025). Below these is the 'Aspire LD' logo and contact information: 5534 Saint Joe Road, Fort Wayne, Indiana 46835-3328, États-Unis, support@aspireld.com, 7065811963. A 'Client' dropdown menu is labeled 'Choisissez un contact'. The 'Titre de la facture' field has a placeholder: 'Donnez un titre à cette facture. Ex. Achat de vêtements ou Refonte de site'.

- ✓ The above picture clearly shows how the invoice form looks like you just have to enter the necessary informations about the invoice you are to create which are:

➤ Select the client to whom you want to send the invoice

➤ Give the title of the invoice

The screenshot shows the 'Article ou service' table in the Wix invoice creation interface. The table has columns: Article ou service, Quantité, Prix, Taxes, and Total de ligne. The first row has a dropdown for 'Saisissez, sélectionnez', a quantity of 1, a price of 0, and a total of US\$0.00. Below the table is a button '+ Ajouter une ligne d'élément'. At the bottom, there are summary rows: 'Sous-total' (US\$0.00), 'Total de la facture' (US\$0.00), '+ Ajouter une réduction', '+ Demander un acompte', 'Montant payé' (US\$0.00), and 'Reste à payer' (US\$0.00).

- Here the picture shows the price, taxes, quantity and total amount of the invoice

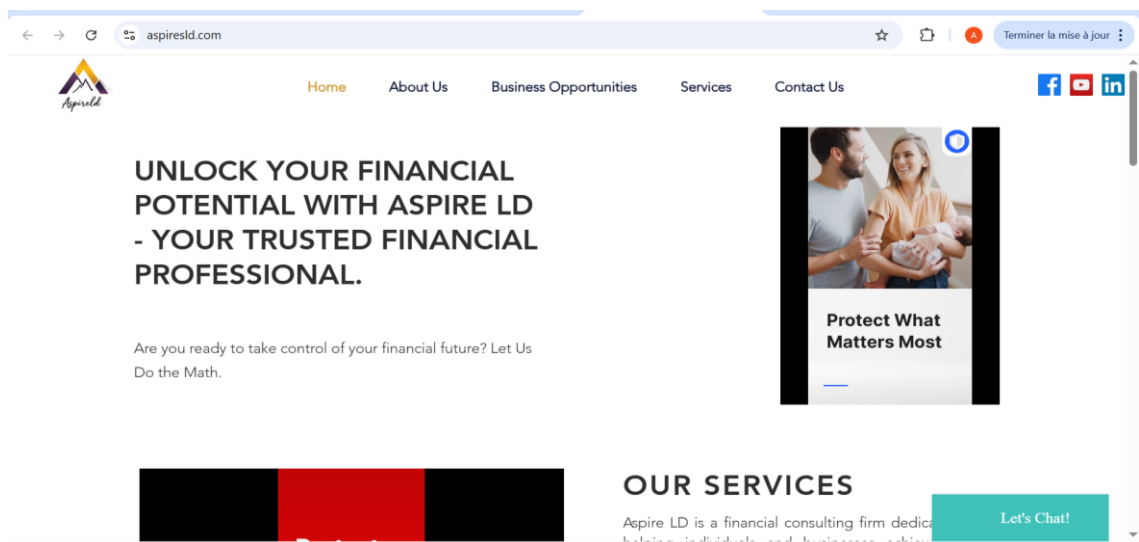

- ✓ Once every information has been entered click on “Send Invoice”. Your invoice will be send to the client

Step 3: Final Testing

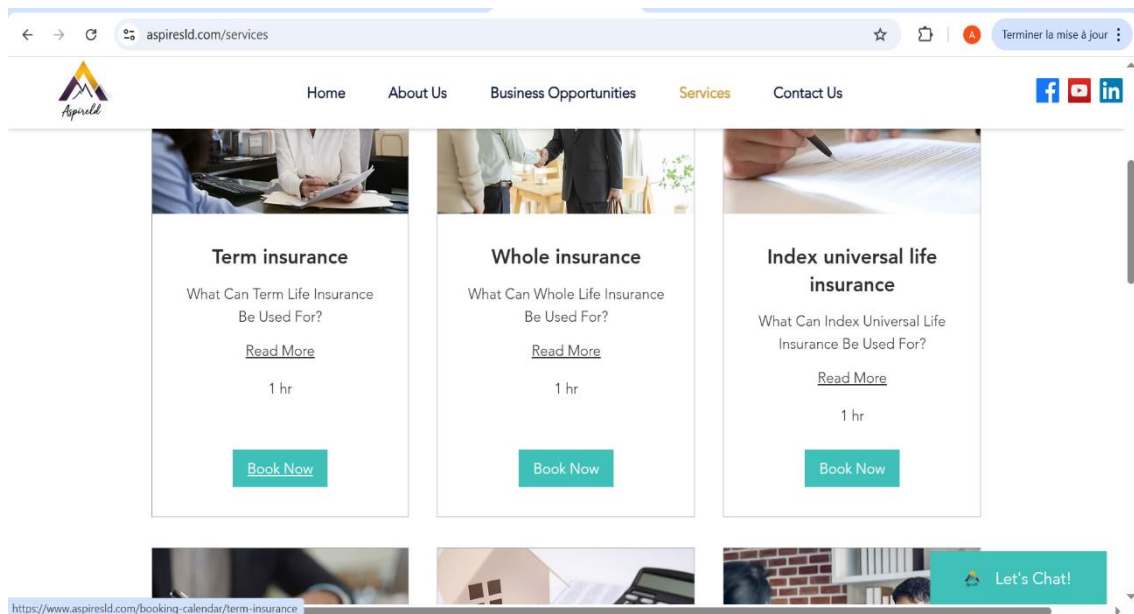

Here we are to show you how can test to see if your configurations has worked

➤ For Setting up your Calender

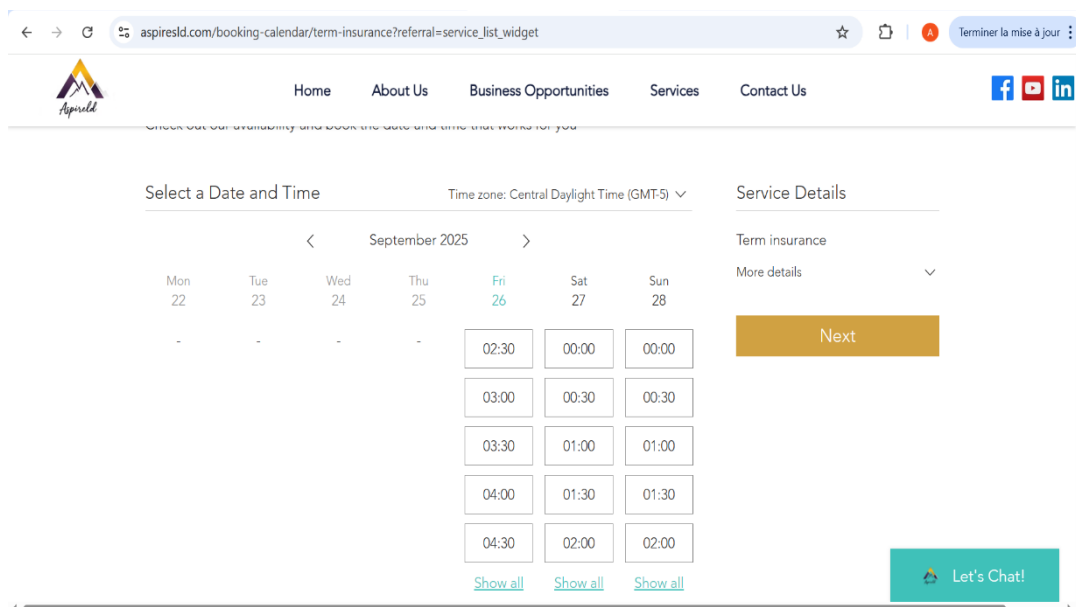

- ✓ Click on the AspiresLD link <https://www.aspiresld.com/> that will directly bring you to the AspiresLD website

- ✓ Once in the website click on “Services” and book a service

- ✓ Once you have book a service, you will see the result of the calendar you previously setup . This shows your calendar has been properly setup

Final Outcome

- The service provider can set up his own calendar and generate invoices for their customers
